

WORKERS ON-SITE CONTROL SHEET

Email: enquiries@mariscosouth.com

SITE:	
--------------	--

Workers must sign-in and sign-out on every occasion they enter onto or leave this site.

There is a separate site-visitor control sheet and risk assessment for non-workers.

In signing this form, you confirm you have read and will comply with the controls, procedures and recommended safe-working practices stated within the *risk assessments* and *CDM plan* available on this site. You agree to wear and use the recommended PPE at all times.

You will not undertake any activity that you are not properly trained and qualified to carry out.

Wilful failure to comply will be a serious disciplinary matter that may result in your dismissal.

If this is your first visit to this site as a worker, you must undergo a full construction site induction session, delivered by a site-supervisor, before commencing work.
